GENERAL UPDATES - GS

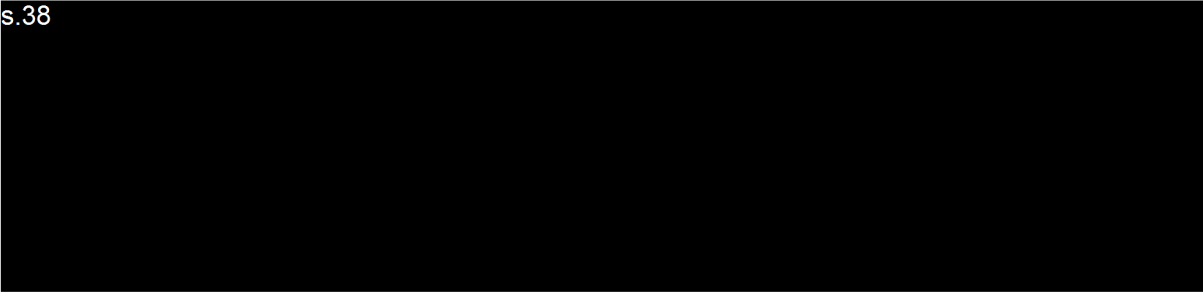

LEGAL SITE

- Numbers similar to yesterday
- There is a distinct morning look and a slightly increased number in the afternoon
- Typically we are seeing a few more pick up trucks with flags arrive in the afternoon
- 8 RV(s)
- 21 passenger vehicles
- 1 horse trailer
- 1 picker truck with flag
- 4 utility trailers, including a reefer truck has a trailer there that is stocked to the roof with food;
- Well-resourced overall on the legal site
- 1 food truck
- The one crane that was there departed yesterday
- Similar look; it's cold so we're not seeing more than a dozen people out and about this morning
- 3-4 hardnosed people; one is antagonistic
 - He follows CCMG members around telling them they have no right to be there
 - While he escorts our members back to our car, is aggressive in posturing
 - Then when no one else is around, he smiles at our members, so it's clear he is striving for a particular look
- Our group will make more frequent patrols on the legal site but for less time on site per visit
 - One thing to note, it's Crown land, so if there is an ongoing conversation on their end that it's "theirs," we may need to consider other options
 - One of the leaders, named **Perso** turned up short term yesterday and then left again

1004 hrs

- There were a couple of pick up trucks driving down the highway, well below the speed limit, flags waved
 - We stopped them and told them not to be doing that and they then stopped doing that
 - Of course everything is being recorded, so we want to ensure there is a consistent messaging as to our members responding
 - Members need to be grounded in their authorities
 - There would be a huge benefit if there was a document outlining clearly their authorities for consistency as we have new members coming in today

s.38

IBET

- There's a need to do cross- border mandate / patrol
- Would like 2 teams of 2
- To reinforce why we need to have this – we will be vacating this building and shifting to Raymond
 - They'll be important liaison
 - Should be IBET present here, working under their mandate
- KK – GS, when are you moving to Raymond?
 - GS – we're meeting tomorrow and then starting a transition tomorrow to Raymond, not all at once, but it will be starting tomorrow

TOW TRUCKS

- COE and CPS tow trucks will be working today and traveling back to their respective homes tonight; still have province of Alberta tow vehicles available to us, so we remain appropriately resourced

DEL BONITA

- Zero activity in that neck of the woods;
- Cardston commander can assess that area routinely and update as needed

RESOURCING

- Trying to down size
- Will combine scribe role with intel role out in Raymond
 - Initially we thought a Raymond detachment PS could be used but that person is not available so we are working on it
 - DB is looking for someone, who doesn't have to be an ERT scribe, but someone who can be hybrid to provide intel/DCAS as well as the scribe function

LEGAL SITE

- We don't expect much activity today because it's cold and windy today
- KK – hopefully we'll be through this soon

1011 hrs

ROUND TABLE

- TD – could we land on the cheat sheet for our members – who will provide?
 - KK – We have something started
 - KK – Matt put one together for CP10
 - KK - - Will follow up with AH on this
- **TASK** – KK and AH to discuss and confirm tasking of member authorities cheat sheet
- GS – last night we’ve been made aware there is a commissionaire hired to keep hotels safe – he was voicing that he supports the truckers and not the RCMP – the Commissionaires know immediately who that is and steps are being taken to remove that individual and replace with someone who can remain neutral
 - Apparently he does roving patrols and he has voiced he is very supportive of the protestors
- AH – in terms of the ratios for NB-SB travel
 - GS – just, optically every day, there is a line up of trucks SB, NB not many – 2 lanes SB and 1 lane opened for NB
 - Will confirm Monday – CBSA will be back in tomorrow, not in today
 - AH – need to report to Ottawa on activity there
 - GS – movement through the border crossing remains free-flowing;
 - If any slow downs – we are pulling over, no real slow roll but more a medium role, we pull them over and ask their intentions and let them know not to do that

1015 hrs

CONVOY ACTIVITY WITHIN THE PROVINCE - PR

- Response regarding yesterday –
 - Saw approx. 686 vehicles
 - Majority were passenger vehicles, some families, overall town peaceful and lawful; a few hardnosed individuals, who overall became compliant so they could carry on to join Edmonton
- Ponoka - 110 vehicles
- Acheson – 360 vehicles
- Strathmore - 85 vehicles
- Fort Saskatchewan - 30 vehicles
- Nisku - 101 vehicle
- Biggest challenges we saw yesterday were loads of farm equipment, some hay bales, lumber, flat deck with tractor and skid steer
 - We do, and did, continue to utilize S/Sgt. Brent Meyer, who is embedded;
 - Depending on intel, we will share with EPS
- Air 1 is up to identify what’s coming up in our area so we can isolate and confirm intent
- Our concerns remain livestock and skid steer type equipment
 - We did talk to the owner of one yesterday

- Our messaging is consistent to let owners know there is no place for these types of things in the city
 - We were successful in getting the owner to park the equipment
- KK – could you please clarify the numbers at the legislature?
 - PR - Approximately 686 vehicles in total and 900 people in foot traffic in that area
- Big promotion yesterday was that Tuesday was going to be the big day; they were calling people back and promoting to stay in the Ramada
- They were advertising to chat on **s.37** – QR code on signs – EPS if viewing as open source – they have connected and are monitoring those chats to determine plan and intent
- Did reach out to S/Sgt. Paul Vanderstoop about monitoring
- Love the cheat sheets idea; would like to see details / messaging about tractors and equipment on highway;
 - If some info could be included on the sheet, it could provide some of our members with again that consistent messaging
- Some intelligence has been gathered around protests coming into City of Edmonton this Tuesday
 - It would be helpful to include what intel we're collecting on SitReps
 - Also it would be useful have a sense of location of staging areas so we can have members present to identify whether any livestock, equipment or anything that would be problematic is present
- CAD remains a work in progress
- Legislature grounds
 - Protestors had completely disbursed by 1707 hrs
 - KK – so at the height of the legislature protest yesterday, 686 vehicles but disbursed
- KK – so when discussing intelligence, is that not coming out from Intel?
 - Maybe BW can comment on that?

INTELLIGENCE

- BW – had conversation with AH yesterday –
 - Keep in mind that intelligence is a bit of a 2 way street
 - We can do open source but it's kind of like looking through an entire ocean for a particular fish
 - If we can get information that is sent to us from detachments or districts saying this is what we have, it can help us narrow down and concentrate
- BW – **TASK** - will follow up with PR about the platform
 - Not familiar with it
 - Sometimes municipalities have different rules about open source
- PR – regarding the “ocean” of information; what we're seeing is like schools of fish constantly changing;
 - Acheson had its group and then Barrhead and others joined
 - That's where they were promoting the **s.37**, which is publically promoting people to join,

- s.37
- Within the chat, there were people from within each group seeking confirmation from other groups about who was joining where and when
- So with help from EPS we were able to determine who was going where when which was helpful for us
- VC – the issue with the s.37 came up early on
 - General consensus at the time, right back to Feb 1st was that s.37
 - s.37
 - s.37
 - s.37
 - TIOS didn't but do now
 - s.37
 - KK – I think regarding the activity on February 1st was initially, at that time, I understand it was a private group,
 - Where this is being advertised as a public group where anyone can join – perhaps worthy of some additional discussion
 - Solicitor-Client Priv. [REDACTED]
 - VC – as soon s.37, you can join a
 - It is a chat on first name basis only
 - Conversations are typically communications to provide information about movement or clarity, things like Team “A” a is moving west on Henday and Team “B” is moving east

1028 hrs

- KK – any questions for PR or VC?

IBET, FEDERAL - LM

- It wasn't CROPS that had the IBET; TD2, who was attached to D/EOC and had reached in was advised according to the D/EOC plan,
 - Messaging was that no further resources were required past the 22nd of February
 - GS – to clarify – no additional resources for the protest itself but we do need for the m to resume their normal mandate which will help immensely
- LM – **TASK** – will reach back to them about that
- LM- around the s.37
 - There is recent case law on this
 - 2021 case out of Toronto; the Toronto police were on, but there is capacity to breach
 - Based on current case law, it's unlikely there would be an expectation of privacy in terms of its current use by protestors
 - Reference Regina vs Aiden 2021
 - This just recently took place; court in Toronto, out of the 361

- LM – **TASK** – will send case law to AH
- LM – Ottawa piece for SA
 - Logistics are that we provided names of our people that would go
 - Just to assist in maintaining control and relieve members that have been there a while
- KK – other updates?
- BW – one other thing that came out, which we also sent to KC
 - An event in Drumheller; **Personal** may be in attendance
 - There is an order for him not to attend
 - TD – the wording of the order is not very strong
 - VC – we dug out the order from CQB
 - There is an odd little clause in that. with respect to some of his conditions
 - Essentially, there is a specific phrase he needs to use ahead of anything he intends to say
 - Sent to AH for SA
- AH – received just a couple of minutes before the meeting
 - Recognizing this discussion is a little separate from the overall provincial viewpoint, do we want a separate meeting to update / discuss, to confirm where conditions might be skating borderline of what they are and are not able to do?
 - KK – leave this as district decision – TD are you good with that?
 - TD – yes
- KK – anything else from BW or VC?

1034 hrs

- CC – Rebel News are claiming they have leaked RCMP texts
 - Looks like they are all people (members) who are now in Ottawa
 - They all appear to be comments along the lines of
 - Wasn't that great, talking about how the horse stomped that woman, that we should do that more often
 - Other messages were along those lines
 - This is not confirmed to actually have come from our members
 - National is aware and are preparing speaking notes on that

1036 hrs

- KK – Sent to SR and National as well
- NS – Nothing to add
- KK – For tomorrow's meeting, we'll have briefing meeting at 1000 hrs to discuss upcoming week and planning for Tuesday

END 1037 hrs
